

## Description

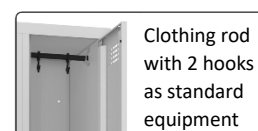

SUS W is a family of wardrobe lockers equipped with a bar with two hooks, a self-adhesive label holder and ventilation that increase air circulation. The solid construction of the lockers allows them to be placed on feet, a socle or a base with seat and shelf for shoes, and the installation of a slanted top.

SUS wardrobes are used in every employee changing, school and gym locker room. The lockers are delivered complete and do not require assembly. As standard, the cabinets are available in 16 colours at no extra charge.

	The legs are equipped with feet adjustable in the range of 0-10 mm, what help to level the cabinet.			
	A base with a seat is available at an additional cost. Adjustable 0-10 mm feet help to level, raise and stabilize the cabinet. The bases, apart from a place to sit, enable the installation of a shoe shelf. Various types of seats are available: wooden or PVC.			
	Roof is available at an additional cost. It helps to keep clean, in addition, the 22° angle of the roof prevents unwanted items from being left at the top of the locker.			
	A shoe shelf is available at an additional cost. This is an additional space for storing shoes. A perforated shelf allows water to drain away and speeds up the drying of the shoes.			

## Description of markings

The 5-year warranty proves that we are confident in our products due to the high quality of execution and their reliability. We want you to feel safe and be satisfied with the cooperation with us.

The ISO certificate confirms compliance with standards and the high quality of products and services we offer.

We offer 16 colors from the RAL palette - as standard. Therefore our furniture fits to any interior

The use of zirconium coating technology provides a very good protection against corrosion. Additionally, this process improves paint adhesion

PZH hygienic certificate is granted for a product that does not adversely affect human health and the natural environment..

We test lockers in our own laboratory, the Research and Development Center (CBR). This ensures that the tests are comprehensive and carried out correctly..

Our perforation is well thought out, delicate and subtle. It guarantees adequate ventilation and fits perfectly into modern workplaces.
