

CABINET SYSTEMS

HINGED DOOR CABINETS

LISTA hinged door cabinets provide secure and orderly storage for a variety of warehouse goods. All cabinets can be configured individually and adapted to your specific storage needs through the flexible use of partition materials and cabinet accessories.

Hinged door cabinets: Depending on the model, the cabinets are equipped with: galvanised adjustable shelves, 30 mm thick, load capacity 60 kg. Pull-out shelves and drawers painted, anthracite grey, RAL 7016, load capacity 50 kg

KEY Lock: KEY Lock, our standard locking system with replaceable cylinders. Manual opening/locking with key.

Hinge bearing assembly: The doors are flush with the cabinet housing. Opening angle approx. 115°.

Clear height mm	885	Colour	Gentian blue RAL 5010
Number of adjustable shelves	1		

Product-specific benefits

- Maximum stability** with a housing load capacity of up to 500 kg
- High capacities** 60 kg or 100 kg per adjustable shelf, 50 kg per drawer/pull-out shelf
- Outstanding protection** against dirt, liquids and physical loads thanks to closed housing with impact-resistant and abrasion-resistant surface
- Flexible adaptation options** with covers, pegboards, control panels and clothes rails
- Optimum order and organisation** with optional installation of drawers and pull-out shelves for clear and orderly storage of small parts (for a cabinet depth of 580 mm)
- Clear organisation** with viewing windows made from UV-resistant, shatterproof acrylic glass
- Secure locking option** with solid sheet or viewing window doors (flush-fitting, folded from one piece) and intelligent locking systems
- Easily adaptable to new stored goods** by installing or converting drawers, pull-out shelves and adjustable shelves in 25 mm increments as required

OVERVIEW OF LISTA ACCESS SOLUTIONS

KEY Lock

Proven standard locking system

KEY Lock, our standard locking system with replaceable cylinders.

- **Manual opening/locking** with key
- Simultaneously lockable for multiple, as well as different, products with only one key or separately lockable with several keys
- Key availability guaranteed for years

CODE Lock

The modern solution with number combination

When locking with CODE Lock, the key is replaced by a number combination. A simple four to six-digit code is all that is needed to open the product.

- **Manual opening/locking** with number code
- Lock readout and programming with LISTA Access Software (option)

RFID Lock

Ready for the future: the solution with RFID Badge

In addition to the CODE Lock, the LISTA RFID Lock enables opening and locking via standard radio-frequency identification (RFID). It consists of a transponder in the lock and standard mobile RFID badges/cards/tags.

- **Manual opening/locking** via RFID badge or number code
- Most standard RFID badges/cards/tags can be used
- Lock readout and programming with LISTA Access Software (option)

AUTO Lock

The ultimate solution: automatic opening and locking

The LISTA AUTO Lock features the same functionality as our RFID Lock, however opening and locking take place automatically. With LISTA Access Software (option), time profiles can also be programmed in the lock or on the user for time-limited access for increased security.

- **Automatic opening/locking** via RFID badge or number code
- Most standard RFID badges/cards/tags can be used
- Locks automatically after a preset time or at the push of a button
- Lock readout and programming with LISTA Access Software (option)
- Time-limited access programmable via LISTA Access Software (option)
